1K Adhesion Promoter

SU570

Product Information:

ONECHOICE® SU570 Adhesion Promoter is a newly formulated ready-to-use, 1K adhesion promoter designed for North American National Rule markets. It delivers strong, reliable adhesion to bare, unprimed automotive plastics like bumpers and fascias while supporting fast, efficient application.

As an Oxsol-free evolution of SU470LV, **SU570** will replace SU470LV in regions where Oxsol-containing products are restricted.

Features & Benefits:

- **Ready-to-use formula** for easy application
- **Excellent adhesion** to bare automotive plastics
- **Fast drying** to support productivity and cycle time
- **Lightly pigmented** for consistent application control
- **Superior topcoat adhesion** and hold-out performance
- **Formulated without Oxsol** (replacement for SU470LV in restricted regions)
- **VOC compliant in SCAQMD** (Rule 1151) regions of California as of May 6, 2026

Ordering Information:

Code:	SU570
Description:	1K Adhesion Promoter
Item Number:	SU570/04
Size	Quart
Container:	Accupour metal
Packaging:	6 per case
