

# ENVIROBASE<sup>®</sup> HIGH PERFORMANCE COLOR VARIANT SYSTEM

**ENGINEERED FOR SUPERIOR COLOR-MATCHING ACCURACY WITHOUT THE NEED FOR SPRAYOUT CARDS**

With more than 6,500 prime and variant color chips sprayed with *Envirobase High Performance* paint, the color variant system provides “what you see is what you get” accuracy between the selected chip and its corresponding color formula. Each deck is conveniently arranged by color family to provide users with a wider choice of possible matches beyond the customer’s vehicle color. Proven to virtually eliminate the need for sprayouts, this innovative color deck is the ideal tool for maximizing throughput in the paint booth.
